Overtime and Flex Time

Section 1. General. It is the general policy of the school district that non-exempt employees not work over forty (40) hours during a work week to complete their normal duties. However, the school district recognizes that there may be occasions which require employees to work beyond their established work hours. For such situations, the Superintendent or designee shall determine whether it is necessary for non-exempt employees to work overtime hours. Employees shall be required to perform all overtime hours assigned to them by their immediate supervisor.

Section 2. Scope. This administrative guideline applies to all EACS employees and all managers, supervisors, and employees should be familiar with the contents of this policy. The information in this administrative guideline does not supersede any legally binding agreements with employees covered under a collective bargaining agreement.

Section 3. Definitions.

1. Work week. A work week is a regular recurring period of 168 hours in the form of seven (7) consecutive 24 hour days. East Allen County Schools’ work week begins on Saturday and ends on Friday each week.

2. Non-exempt employees. Non-exempt employees are employees that are subject to the wage and hour laws established by the Fair Labor Standards Act (FLSA). Non-exempt employees must receive overtime pay at the rate of one and a half times their regular rate of pay for each hour worked above 40 hours a work week.

3. Exempt Employees. An exempt employee is a worker who is not subject to the minimum wage and overtime requirements of the US Federal Labor Standards Act (FLSA). Exempt employees are not eligible to earn overtime pay.

1. Flextime is a provision that gives employees the flexibility to perform their assigned duties outside of conventional business hours and is intended to promote work-life balance.

2. A flextime schedule is not appropriate for all positions, or in all settings, or for all employees and it should not negatively affect the workload or productivity of coworkers either by shifting burdens or creating delays and additional steps in the work flow.
