

# Sometimes There is a Substitute Teacher

Sometimes the teacher will not be at school.  
Sometimes the teacher might be sick or have to stay home.  
Sometimes the teacher may need to be in another room or in a meeting.

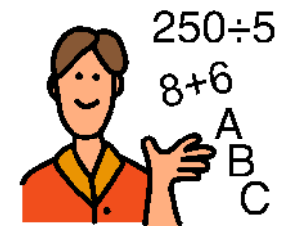

Sometimes a class will have a substitute teacher.  
This means that a different person will be the teacher for the day.

substitute

People usually call a substitute teacher a sub.  
The sub will be nice and try to help students learn and do work.  
The teacher will be back soon.  
The sub will be in charge and will tell the students what they are supposed to do.  
The teacher made the sub a schedule for the day.

teacher

Remember that students should follow the rules and do what the sub says, even if other students don't follow the rules.  
It is not the student's job to be the teacher or to tell others what to do.  
It is their job to try to do their best work.  
The teacher will be proud when she comes back to school if students do their best work.
