

Social Story

Thunderstorms

Spring is a time for rain. Sometimes it

rains very hard. There is thunder and lightning.

When it rains hard with thunder and lightning,

it is called a thunderstorm. Sometimes people

are scared during a thunderstorm because of the loud

&

noises of the thunder and the rain hitting the

&

windows and the roofs of houses.

I might feel scared during a

thunderstorm. There are some things I can

do to make me feel better.

I can sit by my mother or

father or brother or sister. That will make

me feel safe.

I can try to think about something

else. Maybe I can listen to music or play

a video game. Maybe someone will read to me.

I will try to be brave during a

thunderstorm. I must also be careful because

thunderstorms are dangerous.

Thunder is not dangerous. It is just

loud. But lightning can hurt people. I should

stay

away from windows.

I

must

not

take

a bath

or

talk

on

the telephone

when

there

is lightning.

After the storm is over, the sun comes

out

and

everything is wet.

The

best

part

about a thunderstorm is when

it

is over. Then

I

can

go

outside

and

play

in

the

puddles

in

my

yard.

Look at how much fun it is to

splash in puddles!
