

EAST ALLEN COUNTY SCHOOLS

DREAM IT. DO IT.

Dear Parents or Guardians,

Your K-8th grade child has the opportunity to get online daily and pursue academic learning through an internet-based program called Compass Odyssey. This program is accessible outside of school (home, library, etc.) by going to <http://thelearningodyssey.com>. Click on the Quick Links – Compass Odyssey and it will direct you to the Compass home page.

From there your child will use his/her school username and password.
(Username= student id, Password= first name)

Your child is already utilizing the program at school. K- 8th grade students are working on specific assignments based on their performance in the classroom or on other assessments. Compass Odyssey tailors prescriptions for each student based on this unique data. This allows your child to focus on specific skills necessary for his/her academic growth.

Compass Odyssey is a fun, friendly, and interactive program that the students enjoy. The program covers Language Arts, Math, Science, and Social Studies.

Go to <http://thelearningodyssey.com>

To Log In:
